

ALUMINUM SUPPLY COMPANY, INC.

The ASCO Advantage:

Aluminum Supply Company, Inc. (ASCO), the sister company of Marshall Sales, Inc., is a second-generation, family-owned business located in Detroit for over 60 years. Since 1948, by providing quality materials and exemplary customer service, ASCO has built a strong reputation as a valued supplier to, among many others, the glass and glazing industry.

ASCO's warehouse is stocked with a vast array of extrusions, from standard angles, bars, channels and tubes, to specialized items such as panel hangers and partition extrusions for bullet resistant Plexiglas applications. Many parts are available in anodized finishes as well as the common mill-finish condition. ASCO also stocks a large variety of sheet goods. From anodized and painted aluminum sheet to copper and stainless steel, Aluminum Supply is the source to satisfy your architectural building-material's requirements.

Contractor: American Glass & Metals Corp.*

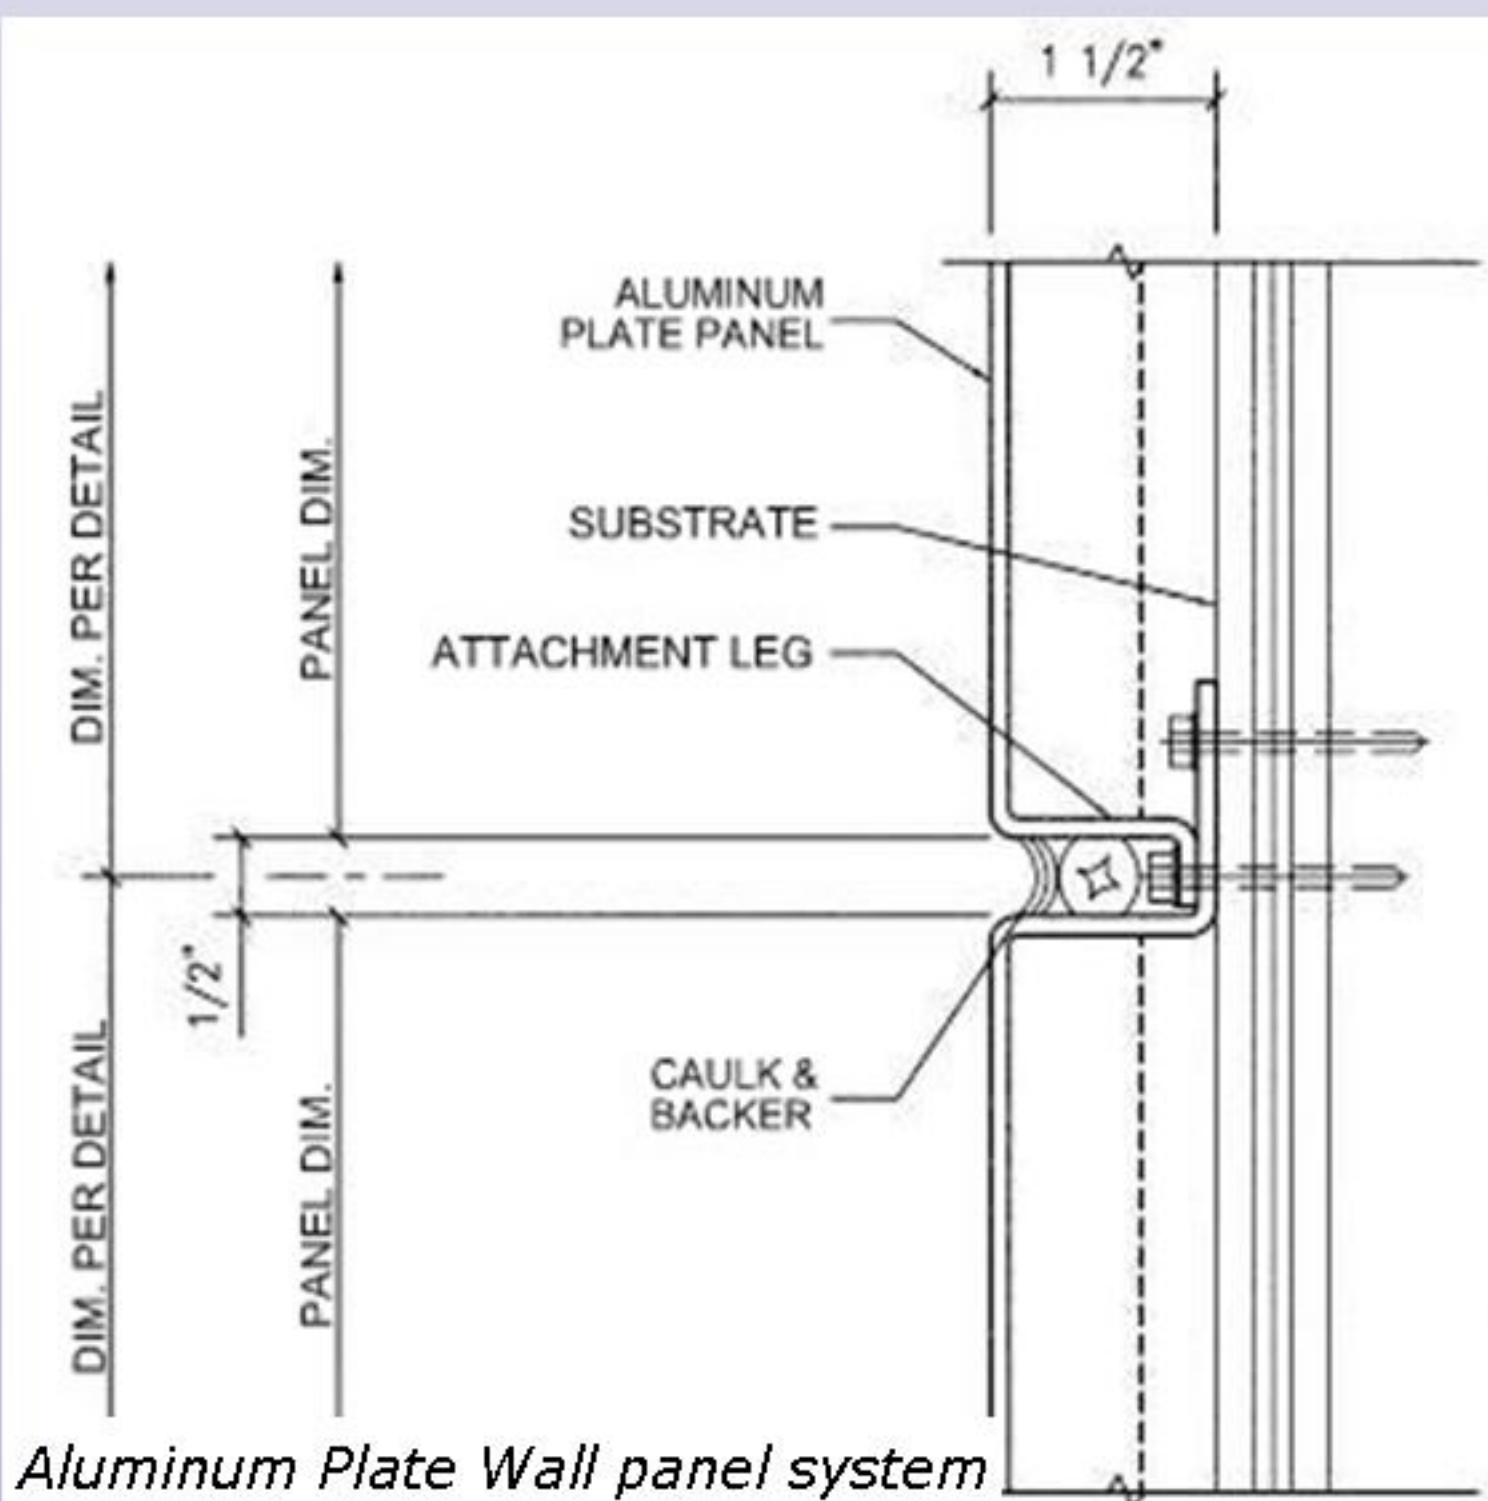

HIGHLIGHT- Fabrication Services

Aluminum Supply's fabrication team is an experienced, skilled group. Starting with sheet-metal layout and design, through shearing, brake-forming, welding and punching, ASCO's fabrication department consistently produces quality end-products ranging from simple flashings to complex panel systems.

SPEAKING OF PANEL SYSTEMS....

Aluminum Supply's aluminum plate panel system is an economical wall panel solution. Fabricated from 0.125" aluminum*, panels are produced with welded and ground corners, stiffening rails if required to meet deflection criteria, and in any of a wide variety of painted or anodized finishes. Providing superior weatherability, aluminum panels offer consistent beauty and durability to match or contrast any of the adjacent elements on the project.

Please call for information or quotations at 313-491-5040, or stop by www.aluminumsupply.com
